SEASCALE TO SELLAFIELD ROAD, BECKERMET

Drilling of six temporary boreholes to support the selection of an in-ground testing area

There are no objections in principle to this application from Environmental Health.

Can the applicants confirm when each site's respective demolition works will be carried out in respect to the drilling of the boreholes?

On a previous site visit, the possible area of a farm septic tank and drainage field was noted on the grassed area south west of the former farm house at Tarn Head on which two of the proposed boreholes (BH TH 01 and 03) are proposed.

Regards

**Kevan Buck**
