Subject: PLANNING APP 4/24/2089/0F1 - LAND TO REAR OF WYNDHAM STREET, CLEATOR MOOR

Community activity centre refurbishment and extension and associated parking and landscaping

Thank you for the above consultation.

There are no objections from Environmental Health as regards the additional information / submissions to this application.

There is one amendment, however, to the response from Environmental Health dated 17.04.24 regarding the suggested condition for the restriction of noise from plant and equipment; it should read "...at 3.5 m from the façade of the nearest noise sensitive premises..." and not 1m as originally stated.

Regards

Environmental Health
