Buy it again? If I had to yes, as a friend no
It is a gutter. It takes rain water It does what it is meant to do I don't think it takes days off or owe money It doesn't ask stupid questions like this site It's too expensive

Health hazard

Fire hazard

Storage of this product important
I had 7 off 4m lengths of this gutter delivered. I was a bit disappointed to find that it wasn't in perfect condition: the ends seemed a bit splayed out suggesting that it may not have been stored in the best way by Travis Perkins. The guttering did still fit into the joins but it would be nice sometimes to receive goods in perfect condition rather than "good enough" condition.
