Hi Demi

Sammy has requested I redo the heritage statement as it looks like I need the wooden window after all As follows

Design, Access and heritage statement

I propose to put a window in the side of my property to let more light into a very dark kitchen

The window looks out onto the entrance to our private courtyard and also onto my neighbours house I have consulted them and they are very happy for me to proceed

As it is a listed building I will be using a wooden window It will have a concrete surround which is the same as the existing windows and the others in the row of houses

I hope this is suitable Please let me know if there is anything else you need or if I need to print out the letter and deliver it

Thanks
