Final 30m length of 1500 pipe to be half-perforated (slots facing up) to act as land drainage to replace existing system. Any existing lateral land drainage culverts/pipes encountered during installation to be connected into new 1500 pipework

New bespoke cast insitu concrete headwall finished with stone pitching to wingwalls & spillway and PCC lintels over the top to enable full reinstatement of agricultural land

4m wide legal easement for future access and maintenance
