

50w LED Ground Mount Flood Light Spike Cool White 450mm Long Stake

DETAILS

Outdoor floodlighting is not only used on the upper part of buildings but also ground mounting. This also allows the upward lift of light to project onto what ever you wish to be illuminated. Spike Floodlights offer a more powerful alternative to your traditional under powered garden spike light. This model has been slim line designed to match the sleek look to any modern outdoor lighting scheme. IP65, 240v, CE, ROHS Compliant.
