

List of materials to be used on external façade of application 4/23/2053/0F1

Roof

Metal Standing Seam Roof – Green Coat PLX – Anthracite RAL 7016

[Best Priced GreenCoat PLX Standing Seam Metal Roofing | Metal Roof Co
\(themetalroofcompany.co.uk\)](https://themetalroofcompany.co.uk)

Walls

Facing Brick – Tobermore - Lansdown facing Brick – Charcoal

[Tumbled Facing Bricks For Modern and Period Properties \(tobermore.co.uk\)](https://tobermore.co.uk)

Render - K-Rend - Silicone TC15 - Pure White

[Silicone TC 15 | Products | Renders | K Rend \(k-rend.co.uk\)](https://k-rend.co.uk)

Timber

Conditional approval requested in relation to areas where a timber façade is proposed. Style, type and manufacturer of timber to be chosen once the build has been erected (made weather tight) so testing/sampling of timber can be offered up against the other materials.

Doors

Composite door - Anthracite - RAL 7016

Manufacturer T.B.C (price dependant)

Windows

UPVC or Aluminium frames - Anthracite - RAL 7016

Manufacturer T.B.C (price dependant)

Gutters & Rainwater Pipe

Half round metal guttering - Anthracite RAL 7016 to match metal standing seem roof

[Lindab Guttering & Downpipes | Available from The Metal Roof Company](#)
