FAO: Heather Morrison

Good afternoon,

Thank you for consulting the Ministry of Defence on the above application – the Discharge of Conditions of planning application 4/24/2334/0F1.

I have been reviewing the documents and would appreciate you confirming some information.

The document 'Condition 6 Turbine Specification' contains the dimensions of the wind turbine – stating it to have a maximum blade tip height of 73.5m, a rotor diameter of 47m and a hub height of 50m. However, the document Condition 11 and 12 – MOD Letter states, under the details for Condition 11, that the turbine will have a maximum blade tip height of 76m.

Can you please ask the applicant to clarify the dimensions of the turbine?

Looking forward to your reply,

Best wishes,

Kathe
