Reducing the window by 205cm

New large window size 250cm and the smallest window size to the right of the corner is 150cm

As above, the white space will be rendered to match the rest of the rendering on the house, the cut off with the large bottom window will be symmetrical with the above window middle frame as you can see from the image.

In addition to this the reason is to cut down on the amount of glass on the front of the building but still be aesthetically pleasing to the design of the house.
