Mill Farm Barns

The Parish Council welcomes the proposal to bring Mill Farm Barns back into use as the development has the potential to improve an important route into the village and it potentially offers the scope for the introduction of two smaller family homes in a sustainable utilisation of these derelict buildings.

However, the Parish Council is concerned by the clarity of the drawings provided and the lack of meaningful annotation. There is also some concern that this lack of detail is confusing and if not addressed potentially removes the ability of the Parish Council and the public to fully understand the material finishes for the building. We would ask that details of which areas are rendered, what the colour of the render will be and clarity over how much of the metal cladding will be used and where. All Councillors agreed that it would be a positive step to get the barns back in use, but that the poor annotation left significant concerns over the appropriateness of materials in the design context of the village.

Lesley Cooper
Clerk to Millom Without Parish Council
