Subject: PLANNING APP 4/25/2262/0F1 - ELF HALL, LADY HALL, MILLOM
Date: 10 October 2025 14:13:22

Demolition of existing dwelling and out building for a self-build and custom build replacement dwelling, detached garage and new package sewage treatment plant

Thank you for the above planning consultation and the additional information provided dated September and October 2025.
The demolition of the existing structure should be quick and straight forward and the Demolition Method Statement provided is acceptable.
The agent has confirmed in writing that the asbestos containing material (ACM) in the existing structure does not need a licensed asbestos specialist to remove it. Given this, Environmental Health have no objections and no further comments further to those made previously on 07.08.25.

Regards
