Our ref: PLC/BCC/2074

Dear Heather,

Planning (Hazardous Substances) Act 1990 / Planning (Hazardous Substances) Regulations 2015 / Planning (Hazardous Substances) (Amendment) Regulations 2017- Hazardous Substances Consent application for the Sellafield site

Sellafield Ltd operates a number of processes on the Sellafield nuclear licensed site, some of which involve the storage and use of hazardous substances. Following discussions with the relevant regulator, the Health & Safety Executive (HSE), Sellafield Ltd wish to apply for a new Hazardous Substances Consent for the storage of petroleum products (diesel), as new storage facilities are required to serve stand-by generators at the sites of two new electrical substations on the Sellafield site.

Accordingly, there will be no changes to the type of activities undertaken by Sellafield Ltd using this substance, however these are additional storage locations and therefore require permission under the relevant regulation. Additionally, the plant operators have been required by the HSE to update their associated COMAH Major Accident Hazard Report Annexes under the appropriate regulations in line with the new capacity and location of the new storage facilities, hence Sellafield Ltd also wishes to update the Hazardous Substances Authorisation for the Sellafield site to match this information.

Accordingly, I attach:

1. The completed "Application for modification or removal of condition(s) attached to a hazardous substance consent" form;
2. The site map 1 BE 3032289 Rev C;
3. The notices required by regulations 6 and 7 of the Regulations.
 - Copy of public notice (advertised in the Whitehaven News on Thursday 19th of August 2021)
 - Form 1 Certificate A
 - Form 2 Certificate B
4. The chemical storage general location plan ("Substance Location Plan – Update V2")
 - Expanded view of the Substation 99 fuel tanks location ("Substation 99V2")
 - Expanded view of the Substation 100 fuel tanks location ("Substation 100V2")

The fee of £200.00 payable under regulation 21(1)(c), will be sent separately.

If you require any further information, please contact me.

Yours sincerely

Marc Ross
