#### NOTE REGARDING GROUND FLOOR LEVELS

SITE GROUND LEVELS ARE NOT RAISED BY THE DEVELOPMENT.

Shown here is the proposed ground floor plan against the backdrop of existing ground levels (topographical survey by Edmondson Surveys Ltd). These remain, by and large, unaltered. Only the proposed ground floor level *within the Mill footprint* is raised by approx. 450mm to suit the existing window openings in the Mill shell (and given the more-than-adequate internal clearan to ground floor ceiling).

THE PROPOSED SMALL OUTDOORS PATIO AREA TO THE WEST OF THE MILL BUILDING IS MOSTLY SITUATED WITHIN THE FOOTPRINT OF THE NOW DEMOLISHED PART OF THE MILLS COMPLEX, AND IS NOT AFFECTING WATER FLOWS.
