Sun tunnels for flat roofs

Used for installation in flat roofs to bring natural light into areas of the house where a flat roof window installation is either not possible or not appropriate. The frame is made of white PVC. Supplied with polycarbonate dome.

- Recommended for lengths between 0.2m and 0.9m for flat roofs
 - 0.9m tunnel supplied

Conservation

Conservation roof windows with glazing bar

Conservation roof windows are the perfect choice when planning dictates that a window of traditional external appearance is required. Its black exterior profiles and glazing bar slot seamlessly into the roof and match the original look of the building. It has the same technical features as a standard VELUX roof window.

- Available in both centre-pivot and top-hung
 - RAL colour 9005
