

1. NO ACCESS TO SLAB – AUTHORISED OPERATIVES ONLY
2. NSC ACCESS TO NORTH OF SITE TO BE AGREED WITH FPM
3. PLANT TO MOVE AROUND SITE AS DIRECTED AND ACCOMPANIED BY BANKSMAN
4. SEGREGATION BARRIERS NOT TO BE MOVED WITHOUT AUTHERISATION

- Haki stairs
- NO ACCESS
- ACCESS
- BARRIERS
- PLANT ROUTE
- LIFTING ZONE

Lifting activities
New road alignment works

SITE CONDITIONS			
Restricted site area	Y	Insufficient room for turning area	N
Obstacles	Y	Noisy environment	N
Insufficient light	N	Several openings at ground level	Y
Uneven ground conditions	Y	Several egress points from Building/ Structure	Y
Busy movement at site entrance	Y	Large numbers of people on site	Y
More than one item of mobile plant on site	Y		
RISK ASSESSMENT(based on site conditions)			
The Severity of any incident were mobile plant comes in contact with a person is Fatal or severely disabling .			
Likelihood of incident	Risk status of incident	Tick	
Will occur	High risk of serious injury		
Likely to occur	High risk of serious injury		
Unlikely to occur	Medium risk of serious incident	x	
CONTROL MEASURES			Tick
Segregated site entrance for people and plant			x
One way traffic route to be used on site			x
Physical barriers to separate people/plant throughout site			x
Barriers and warning signage to prevent direct egress from building/ structure/ welfare onto plant movement route			x
Turning circles to be used			x
Barriered lifting zones			x
Daily inspection of vision aids, flashing beacons & reversing warning on mobile plant			x
Banksman to be used for reversing operations			x
Additional lighting			x
Erection of information and warning signage			x
Fencing around openings in the ground			x
Speed limits imposed on site			x
Inspection and maintain traffic routes			x
Instruct all site operatives to "KEEP CLEAR FROM MOVING PLANT"			x
Site	WCH JW22
