

This stove NO1 to be fitted in Grand floor lounge

The Morso 3112 Badger is a multi fuel / wood burning stove made of Cast iron. It features a contemporary ribbed side effect and is available on standard 150mm legs or additional 210mm legs that help bring the door of the stove closer to eye level.

This efficient and environmentally friendly stove has been DEFRA approved for use in smoke controlled areas and also has a top of the range A+ Energy performance class. Offering 5Kw's of heat output, it is perfect for small-medium sized rooms.

This stove to be fitted in Office Grand floor

The **Morsø Squirrel stove** is a popular line of wood-burning and multi-fuel stoves known for their classic design and efficiency. Key models include:

- **Morsø 1010:** A dedicated woodburner.
- **Morsø 1412:** A multi-fuel model with DEFRA approval, suitable for smoke-controlled areas.

↻ 1

- **Morsø 1442:** A convector model with a riddling grate for better fuel management. ↻ 1

These stoves are crafted from robust cast iron, ensuring durability and excellent heat retention, making them ideal for small homes and holiday cottages. The Morsø Squirrel stoves also feature a charming squirrel relief design, adding a rustic touch to any setting. For more details, you can visit the official Morsø website or reputable stove retailers. ↻ 2
