

## Sycamore Trees - 1 Seacroft Drive St Bees

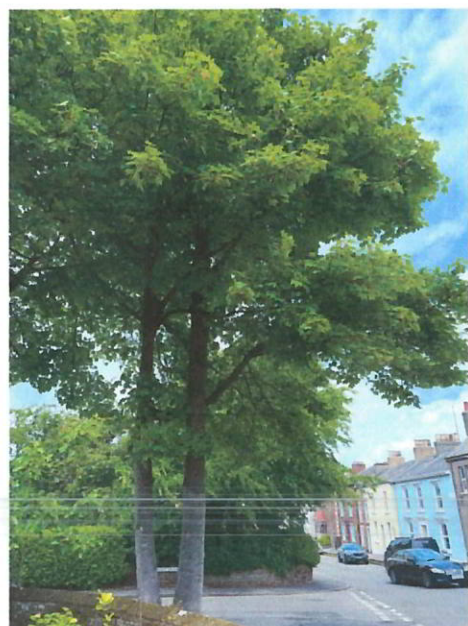

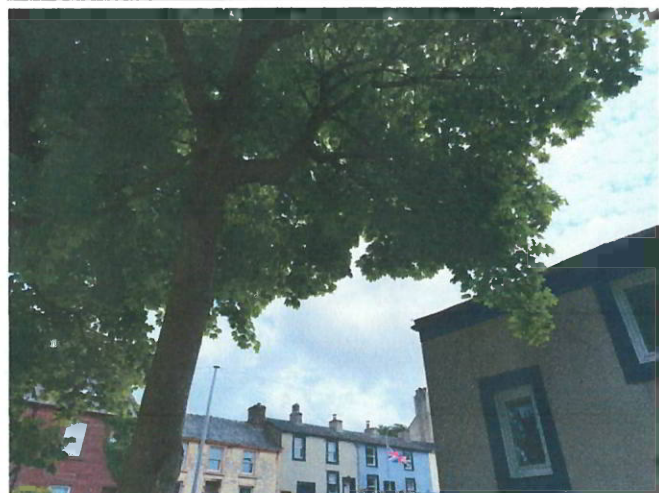

Tree 1 Overhangs Driveway and overlaps branches on neighbouring tree

Trees 2 & 3 Both trees growing very close together and near the house. They lean out overhanging Seacroft Drive and the roof, blocking sunlight from the house and the garden.

Tree 4 also in close proximity to the house with branches overhanging the roof and blocking sunlight from the house and garden.

Trees 5 & 6 are outside the garden wall but are still on our property. They lean out and overhang onto St Bees Main Street and Seacroft Drive. They are also causing damage to the garden wall.
