

Note, the proposals involve extending the 30mph speed limit along Parkside Road A5086.

Visibility splays of 2.4m x 60m are shown, which have been requested by the local highway authority in a consultation response dated 29th April 2025.

Splays are measured to a point which is offset 1m from the kerb. This accords with the guidance set out in Manual for Streets (paragraph 7.7.3)
