key

- OT₂ - Impacted Sycamore tree
- OT₁ - Impacted dead branch
- - Existing BT pole
- - - Existing aerial span
- - - Planned ducting
- ||||| - Residential building

Description of proposed works

Our tree trimming contractor would be required to prune sycamore branches (T₂) and dead branches (T₁) to give a 1-metre clearance of the existing aerial cable span to ensure the ~~safest~~ working conditions for feeding new fiberoptic cable along the existing cable span (aerial span).
