**APPROVAL OF THE REQUIREMENTS OF PLANNING CONDITION 10 OF APP. REF. 4/21/2294/0F1.**

Date: 26<sup>th</sup> September, 2023

Dear Sir,

Please find enclosed report entitled "43048-SRL-YA-RP-006-S2-P1 Plant Noise Assessment.pdf" produced by the Acoustic Engineer commissioned to review the implications of Planning Condition 10 for the above application.

In this report, the Acoustic Engineer has demonstrated the proposals for the external plant to be installed and have assessed the noise impact the proposed development may have on existing residential dwellings. The assessment addresses any potential noise that may impact upon the amenity of the occupier(s) of the dwellings and identifies any measures, if any, required to control the impact of that noise.

We trust this satisfies the condition however please do not hesitate to let me know should you require any further information.

Kind Regards,
