# Alitherm 400 WINDOWS

The Alitherm 400 window is the first thermally broken aluminium system to feature Smart's pioneering co-extruded glazing gasket. This means the beads are supplied with the glazing gasket post-extruded into the profile. This enables the Quick-Glaze beads to be simply tapped in on site, significantly reducing fabrication and installation time.

Available with a flush or chamfered profile, the slim lines of Alitherm 400 provide excellent weather and thermal performance, as well as the security assurance provided by PAS24 accreditation. While the flush, flat face option is suitable for off-set, face-mounted espagnolette locks, the chamfered design features a eurogroove, to enable in-line espagnolette locking mechanisms to be used.

## FEATURES AND SPECIFICATIONS

- ◆ Building Regulations Compliant  
Fully complies with changes to Document L of the Building Regulations
- ◆ Quick-Glaze Bead
- ◆ Excellent Thermal Performance  
An extended polyamide thermal break for enhanced thermal performance
- ◆ Suitable for All Lock Types  
Suitable for off-set, face-mounted espagnolette lock mechanisms
- ◆ PAS 24:2016 Approved  
Enhanced security for aluminium windows and doors
